This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

THE thirteen parts which this volume comprises have already been issued separately, and now appear in a collective form with a General Index. Since the publication of the various parts the information contained in them has been subjected to careful revision. It is possible, however, that some errors may still remain uncorrected; if there be any such which come under attention information concerning their nature and position would be gladly received.

The following pages contain chiefly matter in a tabular form, and should therefore be read in conjunction with the "Wealth and Progress of New South Wales," an annual publication, based for the most part on the figures found in this volume, and designed, as its title shows, to illustrate the resources of this Colony.

No. 4.—Area, Dwellings, Population, and Rates of Municipalities.

Municipal Year.—The municipal year of the City of Sydney begins on the 1st January; in other municipalities it begins on the first Tuesday in February.

Borough and Municipal District.—The maximum area which may be incorporated as a municipal district is 50 square miles, with a population of not less than 500. To entitle a district to incorporation as a borough, it must have a minimum population of 1,000 within an area of not more than 9 square miles.

Municipal Rates.—Municipal rates are levied on nine-tenths of the annual value of improved property, and on 5 per cent. of the capital value of unimproved land, except in the City of Sydney where the maximum percentage on unimproved is 6 per cent. In boroughs and municipal districts they are struck yearly; in the City of Sydney, from time to time, as may be decided. In the city the general rate, which has stood at 16d. since 1891, covers all expenditure; in the other municipalities the general rate cannot exceed 12d., but special rates may bring the total up to 2s. in the £, with 6d. more for street watering, and an additional rate may be levied for water supply when the works have been constructed under the Country Towns Water and Sewerage Acts.

* In addition to this amount an annual sum of £53 11s. is payable for water supplied from a Government artesian bore.

Water Supply of Country Towns.—The Country Towns Water Supply and Sewerage Act and Amending Acts provide for the construction by the Government of waterworks and sewerage systems in municipalities which are outside the areas served by the Metropolitan and Hunter River Water Supply and Sewerage Boards. The cost becomes a charge against the municipality, carrying interest at the rate of 3½ per cent., and repayable by annual payments over a period of not more than 100 years. Under special circumstances, the Government may remit part of the cost.

Though the Manly works were constructed under the Metropolitan Water and Sewerage Act of 1880, the more favourable terms of the Country Towns Act of 1894 were extended to them; hence their inclusion in this table.

At Forbes, Hay, and Wilcannia the works were constructed under the supervision of the Municipal authorities, and the expenditure shown in the table is not the actual cost of the works, but the Government valuation.

Richmond has also constructed waterworks under the Act, but the control was subsequently transferred to the Metropolitan Board of Water Supply and Sewerage. (See Table 34, page 60.)

Campbelltown and Liverpool have each a separate water supply drawn from the main canal, particulars of which will be found in Tables Nos. 32 and 33, page 60.

In addition to the above, there are sixteen districts which are supplied by the Hunter District Water Supply and Sewerage Board. Information with respect to this Board to 30th June, 1898, will be found in table No. 35, page 61.

The municipal districts of Broken Hill and Silverton are supplied with water from works situated at Stephen's Creek which were constructed by a private company under a special Act passed in 1888.

Municipal Elections.—In all municipalities, except the city of Sydney, elections are held in the month of February, the two auditors and one-third of the aldermen being elected annually. All ratepayers, whether male or female, are entitled to vote, property assessed at an annual value of, and under, £25 carrying one vote; £75, two votes; £150, three votes; and over £150, four votes. With a population between 500 and 1,000, a municipality may be divided into two wards; between 1,000 and 4,000, three wards; over 4,000, four wards. Undivided municipalities are set down as consisting of one ward.

In the city of Sydney the elections are held on the 1st December. Unlike those in the other incorporated districts, both owners and occupiers have the right of voting, but the payer of the rates is entitled to the cumulative vote

No. 25.—Municipal Association of New South Wales.

The Association was established in 1883, and its objects are: To watch over and protect the interests, rights and privileges of Municipal Corporations; to take action in relation to any subject affecting Municipal Bodies or Municipal legislation; and to promote the efficient carrying out of Municipal Government throughout the Colony. All Municipalities subscribing £3 3s. annually to the funds of the Association have the right to vote at meetings, and to participate in all the other advantages of membership as set out in the rules.

The Municipality of Sydney is not represented in the Association, chiefly because the administration of the civic affairs is regulated by a Special Act; the Mayor of Sydney, however, under the constitution of the Association, is President.

Capital Cost and Net Liability.—The difference between these totals is mainly attributable to a sum of £377,382, representing expenditure by the City Council on water-works, afterwards taken over by the Metropolitan Board of Water Supply and Sewerage, on which the Board does not calculate interest. As will be seen, this amount represents the exact difference for the last three years. The Royal Commission, appointed in 1897 to inquire into the working of the Board, recommended that the Government should, without delay, fix the amount of the capital debt on which the Board was to provide interest. If the Board had debited its account with interest on the full amount of the capital cost, the estimated expenditure would have been correspondingly greater, and the surpluses shown in Table No. 29 for the years 1891 and 1894 would have been converted into deficits, and the deficiencies of the other years increased.

Cost of Offices.—The amount of the capital debt set down for the last three years does not include £32,341, the proportion of the cost of offices chargeable to the Water Supply Branch; the Board charge working expenses with rent on the new offices.

NOTE.—These works were constructed under the Country Towns Water and Sewerage Act. The Municipal Council of Richmond administered the service till the 26th May, 1893, when it was temporarily transferred, pending legal powers, to the Metropolitan Board of Water Supply and Sewerage. The Board is much restricted in its management, as only premises owned by persons who have signed agreements to take the water can be rated. The accounts are kept separate from those of the Metropolitan Water Scheme.

(+) Surplus. (—) Deficiency.

Maintenance.—The figures given above for the first five years represent only the actual expenditure. Under the new Act, which came into operation on the 1st July, 1897, it was enacted that proper provision should be made for the reconstruction of renewable works by setting aside a sum from each year's revenue to the credit of a sinking fund at the Treasury, from which fund the amounts expended from time to time for maintenance and renewals should be drawn. Had provision been made for the sinking funds for permanent and renewable works, as laid down by the Acts of 1892 and 1894, during the six years for which the figures are given above, the item for maintenance would have been represented by the instalment for each year, and the operations would have resulted in greater deficiencies than the amounts shown for the years 1894–7.

Capital Debt.—Under the 14th section of Amending Act, No. 14, of 1897, the Board are required to levy such rates (subject to a maximum of 1s. in the £) as shall be sufficient to provide for (a) interest on the capital debt at 3½ per cent. per annum, (b) management and working expenses, (c) the annual instalment to the sinking fund for the reconstruction of renewable works, and (d) the deficiency on the previous year's operations (if any). Under the 36th section of the Act, the Minister has to determine the capital indebtedness of the Board to the Government up to the 30th June, 1897, and thenceforward annually, but this has not yet been done. The figures given above are estimated.

NOTE.—It will be seen from the above statement that the Metropolitan Board of Water Supply and Sewerage does not calculate interest on the sum of £103,431, representing expenditure by the Government on Sewerage Works taken over by the Board. The Royal Commission appointed in 1897 to inquire into the working of the Board recommended that the Government should, without delay, fix the amount of the Capital Debt on which the Board was to provide interest. If the Board had debited its account with interest on the full amount of the Capital Cost, its expenditure would have been correspondingly greater, and the deficiencies for the last four periods disclosed in Table No. 38 would have been increased, while the surpluses for the first five years would have been reduced. See note to Table No. 30 in respect of cost of offices.

The mortgages are, according to the Act, divided into two classes one in which the ship is the sole security (principal sum), and the other in which advances are made on the security of what is termed "the Account Current," which may comprise other appliances besides ships. Note.—Mortgages of Registered British Vessels are dealt with under the Imperial Merchant Shipping Act of 1894. The mortgages are, according to the Act, divided into two classes—one in which the ship is the sole security (principal sum), and the other in which advances are made on the security of what is termed "the Account Current," which may comprise other appliances besides ships. Registrations are effected at the ports of registry—Sydney and Newcastle.

No. 32.—Marine Board Certificates, 1895–98.

Master.—To obtain a master's Foreign-going certificate, it is necessary that the candidate should be at least 21 years of age, and have served six years at sea. For the coast trade the minimum age is 20 years, and the service at sea four years, one year of which must have been as mate.

Mate.—To obtain a mate's Foreign-going Certificate a first mate must be at least 19 years of age, and have served five years at sea, one year of which must have been as mate in a grade not lower than third or fourth mate in charge of a watch, whilst in possession of a second mate's certificate. For position of "only" mate the candidate must be at least 19 years of age, and have served five years at sea. For second mate the minimum age is fixed at 17 years, and the service at sea four years. For the coast trade a mate must be at least 19 years of age, and have served three years at sea.

Engineer.—A candidate for a first-class certificate of competency or service must be at least 22 years of age, and for the second and third-class certificates the minimum age is fixed at 21 years.

Marine Surveyor.—Certificates of Competency are issued to those who can pass, or have passed, the examinations necessary for an extra first-class engineer's certificate, or to master mariners who have been in command of foreign-going ships for not less than five years, or those who are in possession of extra master's certificates. Certificates of Service are issued to persons who have served as Marine Surveyors in any part of New South Wales for three years prior to 1881.

Pilots and Pilotage.—Appointments to the Pilot service are made by the Marine Board, and all pilots are Government officers. Certificates of Exemption from Pilotage for the various ports of the Colony may be granted to *bonâ fide* masters of British ships employed in the Australasian or South Sea Island trade, on passing the necessary examination, provided they have been three times in and out of the particular port for which the Exemption Certificate is desired, with their vessels as masters or watch-keeping officers. Masters of vessels who have obtained Certificates are not liable for pilot dues.

Sailing Vessels.

Fares by sailing vessels are in nearly every instance a matter of private arrangement between the captain of the vessel and the intending passenger; but the number of passengers is becoming smaller from year to year, owing to the great decrease of the rates of steamer fares. Single fares from Sydney to London are, however, given as £35 to £45 first class and £18 to £22 second class, and from Newcastle to San Francisco as £20 to £25.

Adjustment of Returns.—From 1889 to 1893 the figures now given do not agree with those originally published in the "Register" for the years in question. The differences have been caused by the adjustment of the returns relating to gold and live stock. As New South Wales is a gold-producing country, it has been adopted as a rule to treat as domestic produce any excess of export over import of gold, and when the import is the greater to class as foreign produce the whole export. In the case of live stock the returns published by the Chief Inspector of Stock, Queensland, of the border traffic between the two colonies, have been accepted in lieu of those of the New South Wales Customs Department.

No. 10.—Trade with each Country during 1898.

The Collector of Customs has authority under various Acts to administer affairs relating to Customs; the body of the law, however, is contained in the "Customs Regulation Act of 1879" (42 Vic. No. 19) and the "Customs Duties Act of 1895" (59 Vic. No. 18). Under the provisions of the first-mentioned Act a Board of Commissioners of Customs is established, which consists of three persons. The functions of the Board are to hear and determine disputes between officers of the Customs and the general public in matters relating to the Department. The decisions, are, however, subject to disallowance by the Governor and the rulings of the Supreme Court and Privy Council. In the exercise of their duties the Commissioners have power to frame rules, orders, and forms for the general conduct of business in relation to matters submitted to them, but have no administrative powers whatever in the working of the Customs Department.

Transhipments.—Entries under this head contain only the description of the packages, as particulars relating to quantity and value are not obtained. Transhipment transactions are chiefly confined to the port of Sydney. Goods transhipped at the ports of New South Wales are not included in the Import or Export returns. It is the practice, however, in some Colonies to enter such articles as imports from or exports to New South Wales. To this practice is due the discrepancy between the returns of New South Wales, as given in the Statistical Register, and those published by the other Colonies, in respect to many articles, such as fruit and minerals, in which a considerable transhipment trade is done between New South Wales and the other Australasian Colonies.

Domestic Exports.—Exported articles which were partly or entirely manufactured from imported materials have been shown as domestic produce.

No. 13.—Imports into New South Wales during 1898.

Collection of Trade Returns.—The quantities and values of the imports and exports are in nearly every instance those furnished by importers and exporters or their authorised agents. In the case of the imports, the particulars are obtained under declaration; but this procedure is not generally adopted for the export returns, although the Collector of Customs has power to demand particulars of goods, under declaration if necessary. No official valuations are made, but the entries are, nevertheless, checked and amended if necessary by competent officials of the Customs Department.

Valuation of Imports.—*Articles Free or subject to Specific Duties.*—The values given are understood to represent the values at the port of shipment, with the cost of freight, insurance, packing, and porterage added, and are in every instance *exclusive of Duty.*

Post Office Parcels, &c.—The quantities and values of goods transmitted through the Post Office have been included in these returns.

Proof Spirit.—Alcohol of the specific gravity of 0·92 at 60° Fahr. is proof spirit. The standard of proof spirit by which all mixtures of alcohol and water are judged contains 57·27 per cent. by volume, and 49·50 by weight, of alcohol. Spirits other than bitters, essences, sarsaparilla, tinctures, &c., are subject to a duty of 14s. per gallon of proof spirit; a proportionate reduction in the duty is allowed on spirits to 16·5 under proof, but on spirits of less strength the duty is enforced as at that strength. The returns of spirits given in the general imports and exports are stated according to measure, whereas the quantities shown in the Table of Revenue collected by the Customs Department are gallons of proof spirit.

Proof Spirit.—Alcohol of the specific gravity of 0·92 at 60° Fahr. is proof spirit. The standard of proof spirit by which all mixtures of alcohol and water are judged contains 57·27 per cent. by volume, and 49·50 by weight, of alcohol. Spirits other than bitters, essences, sarsaparilla, tinctures, &c., are subject to a duty of 14s. per gallon of proof spirit; a proportionate reduction in the duty is allowed on spirits to 16·5 under proof, but on spirits of less strength the duty is enforced as at that strength. The returns of spirits given in the general imports and exports are stated according to measure, whereas the quantities shown in the Table of Revenue collected by the Customs Department are gallons of proof spirit.

* The large values are accounted for by the return of valuable race-horses to other colonies after competing at race meetings held in New South Wales, and by the despatch of New South Wales racehorses to other colonies to take part in meetings there. The traffic is chiefly by rail.

† The statistics have been adjusted in accordance with the Overland Stock Return of Queensland.

Proof Spirit.—Alcohol of the specific gravity of 0·92 at 60° Fahr. is proof spirit. The standard of proof spirit by which all mixtures of alcohol and water are judged contains 57·27 per cent. by volume, and 49·50 by weight, of alcohol. Spirits other than bitters, essences, sarsaparilla, tinctures, &c., are subject to a duty of 14s. per gallon of proof spirit; a proportionate reduction in the duty is allowed on spirits to 16·5 under proof, but on spirits of less strength the duty is enforced as at that strength. The returns of spirits given in the general imports and exports are stated according to measure, whereas the quantities shown in the Table of Revenue collected by the Customs Department are gallons of proof spirit.

No. 17.—Goods Reintroduced into New South Wales *via* Victoria and South Australia, 1898.

(Not included in Returns of General Imports and Exports.)

Reintroduction Certificates.—Goods forwarded from coastal ports (Sydney and Newcastle), or from inland stations in the Riverina District or at Broken Hill for reintroduction into New South Wales, *via* Victoria or South Australia, must be covered by a "Reintroduction Certificate" issued by the Customs authorities, in order to be exempt from payment of import duties upon readmission into the Colony. The list below includes a large number of "Free" goods (N.S.W.) which have been reintroduced under Certificate, as, owing to the dissimilarity of the Tariffs, import duty would have been charged by other colonies, unless the goods were protected by Certificate.

Certificates are granted for goods to be reintroduced within one month from the date of issue, after which time the goods are subject to full import duty. The general Imports returns given in Table No. 13 and Exports returns Table No. 14 do not include the trade under Reintroduction Certificates.

No. 16.—Particulars relating to Conditional Purchases and Homestead Selections.

Land available for Conditional Purchase.—Lands held under the following forms of lease are not available for conditional purchase:—pastoral, homestead, conditional, scrub, snow-land, special, inferior, and artesian well, residential, mineral, and auriferous; also, the area in the Western Division is not available for ordinary conditional purchase. The only lands that can be conditionally purchased are the unoccupied lands outside reservations and areas under occupation license and annual lease in the Eastern and Central Divisions, and lands under conditional lease, if not within reserves, may be applied for as conditional purchases by the holders thereof.

Divisions in which Land may be acquired.	Authority.	Limit of Area.	Price.	Remarks.
		CONDITIONAL PURCHASES—Ordinary Residential.		
Eastern ..	Acts 1884 and 1889 and amending Acts passed subsequent to the Act of 1884, including Act of 1895.	Maximum area, 640 acres; minimum area, 40 acres. The maximum can, however, be increased to 1,280 acres by converting a conditional lease into an additional conditional purchase.	£1 per acre—2s. per acre deposit, payable on making the application, and after an interval of three years, during which period no payment is required and interest is not charged, the balance, together with interest at the rate of 4 per cent. per annum, is payable by annual instalments of 1s. per acre. The whole of the balance may be paid at selector's option, if he has obtained a certificate of conformity, after a continuous residence of five years from date of application in the case of selections made prior to the Act of 1895, or after ten years if subsequent thereto. The survey fee, according to prescribed scale, must be paid at the date of selection.	The holder of an ordinary residential conditional purchase is entitled to a conditional lease up to three times the area of his other conditional purchase, provided that the total area, including the portion leased, does not exceed 1,280 acres. Under section 29 of the Act of 1895 the term of residence in connection with a new conditional purchase or a new additional conditional purchase in virtue of a conditional purchase under the repealed Acts or even under the Act of 1884 is increased to ten years from the date of application. Exceptions as to residence are detailed in section 30 of the Act of 1895.
Central ..	do ..	Maximum area, 2,560 acres; minimum area, 40 acres.	do do ..	The same provisions regarding a conditional lease as in the Eastern Division, excepting that the total maximum area is 2,560 acres.
		CONDITIONAL PURCHASES—Ordinary Non-Residential.		
Eastern, Central.	Acts 1884 and 1889 and amending Acts passed subsequent to the Act of 1884.	Maximum area, 320 acres; minimum area, 40 acres.	The price per acre, deposit, and all subsequent instalments are double those prescribed for ordinary residential conditional purchases. The survey fee is the same as that for ordinary residential conditional puchases.	A non-residential conditional purchase does not entitle the holder to a conditional lease, and debars him from selecting at any future time.
		CONDITIONAL PURCHASES—Special Areas outside Population or Suburban boundaries.		
Eastern ..	Acts of 1884 and 1889.	The minimum and maximum areas are specified in each proclamation, but the maximum area cannot exceed 320 acres.	Thirty shillings per acre and upwards, the price being fixed by proclamation in the *Government Gazette*. One-tenth of the purchase money is payable on application, one-twentieth at the expiration of three years, and a similar amount each year subsequently until the balance of the purchase money, with interest at 4 per cent., has been paid.	This system was first introduced under the Act of 1884. The conditions to be fulfilled are similar to those of the ordinary conditional purchase. No conditional leases can be taken up in special areas, and no conditional lease of ordinary Crown Lands can be acquired by virtue of a conditional purchase within a special area.
Central ..	do ..	The minimum and maximum areas are specified in each proclamation, but the maximum area cannot exceed 640 acres.	do do	The same provisions as in the Eastern Division, with the exception that a conditional lease of ordinary land can be taken up by virtue of a conditional purchase within a special area.
Western ..	do ..	do ..		The same provisions as in the Eastern Division.
		CONDITIONAL PURCHASES—Special Areas within Population or Suburban boundaries.		
Eastern, Central, Western.	Act of 1889 ..	Maximum and minimum areas are specified in the proclamations.	The conditions of payment are specified in the proclamations.	Conditions as to residence, fencing, and other improvements are specified in the proclamations. Any lands within population or suburban boundaries which have been proclaimed special areas are available for special area conditional purchase.

HOMESTEAD SELECTIONS.

Division.	Authority.	Limit of Area.	Conditions.
Eastern, Central, Western.	Act of 1895	Fixed according to capabilities of land for the maintenance of one family, but no selection must exceed 1,280 ac.	The applicant may take possession immediately after lodging his application, but shall commence to reside on the selection within three months after the confirmation of the application, and thereafter continue for the first five years. The annual rent shall equal 1¼ per cent. of the capital value during the first five years. At the expiration of that period a grant is issued, transferring the land in perpetuity to the lessee, on the payment annually of a rent equal to 2½ per cent. of the capital value. Provision is made for a revaluation of the selection by the Government every ten years.

An applicant may appoint a deputy to fulfil the residential conditions during the five years prior to the issue of the grant, subject to the approval of the Local Land Board, but the applicant will be required to pay an annual rent equal to 3½ per cent. on the capital value during the before-mentioned period and effect greater improvements, but on issue of grant his residence on the selection must be continuous for such period, not less than 7 months in each year, as may be determined by the Governor.

Decisions of Supreme Court.—During 1898 the Land Appeal Court was requested to state special cases for the decision of the Supreme Court in nineteen instances, two of which were subsequently withdrawn and in two others the Court declined to state a case, as no point of law was involved. Of the remaining fifteen, seven only were stated and forwarded to the Supreme Court with the result that the Land Appeal Court's ruling was confirmed in six instances and reversed in one. The remaining eight cases were still before the Land Appeal Court at the close of the year for settlement of the terms of the special cases to be stated.

No. 31.—Particulars relating to Occupation.

Forms of Lease under Land Acts.—Prior to the 1884 Act the only forms of lease granted were Pastoral, Annual, Special, and Pre-emptive. Under the 1884 Act provision was made for each of these forms of lease to be continued except the pre-emptive, which was abolished. Under the same Act, Occupation Licenses, Conditional and Homestead Leases were established. The supplementary Act of 1889 provided for five additional forms of Lease, which were as follows, viz. :—Scrub, Snow Land, Artesian Well, Residential, and Inferior Land, and under the Act of 1895 two other forms of Lease were added, viz. :—Settlement Leases for Agriculture and Grazing and Improvement Leases.

Division in which Lease may be granted.	Currency of Lease under Crown Lands Acts of 1884, 1889, and 1895.	Limit of Area.	Remarks.
	Pastoral Leases.		
Eastern, Central, Western.	Eastern Division—Leases expired, 1890. Central Division—10 years currency from 1885; leases expired 1895, but in a proportion of cases extensions varying up to 5 years have been granted under the provisions of section 43, Act 1889. Western Division—15 years currency (1884 Act); 21 years currency from 1890 (1889 Act). In both cases the term has by the Act of 1895 been extended to 28 years.	No limit fixed	Areas under pastoral lease are exempt from conditional or other sale or any form of lease. In the case of leases in the Central Division the Minister may, by virtue of section 3, Act of 1895, withdraw one-half the area held under lease so as to provide for settlement, and by way of compensation an extension of lease is granted for remainder. In the Western Division a similar provision exists, except that the area withdrawn must not exceed one-eighth, and must be within 10 miles from the boundary of a town containing at least fifty inhabitants.
	Occupation Licenses.

This privilege has been extended by the Act of 1895 to cases where land is withdrawn for purposes of settlement from land held under pastoral lease in the Central or Western Division. Other conditions are similar to those of ordinary occupation license.

In the Eastern Division the total area conditionally purchased and conditionally leased must not exceed 1,280 acres, and in the Central Division 2,560 acres. A conditional lease, even of ordinary lands, cannot be taken in virtue of a special area conditional purchase in the Eastern Division. The original area of the Church and School estate was 443,486 acres, of which 151,182 acres have been alienated in fee, leaving a balance of 271,740 acres brought under the operation of the Act for leasing purposes. Recent surveys indicate, however, that the area within the boundaries of the several estates as computed, not surveyed, is 282,304 acres, thus leaving an area of 45,090 acres not held under lease on the 31st December, 1898.

No. 42.—Court of Claims.

Prior to 1831 all grants of public land were made upon the sole authority of the Governor. After that date all public lands were directed to be sold. The so-called "grants" issued prior to 1831 were only promises of grants, giving authority to take possession of the land, but not conferring any title in law. In 1833 an Act was passed (4 Wm. IV No. 9) appointing and empowering three or more Commissioners to hear and determine claims to grants of land. This Act was limited to two years' operation, but in 1835 was made perpetual by Act 5 Wm. IV No. 21. No claims were brought before the Court during 1898.

The deed in respect of an area of 636 acres 3 roods, the claim for which was dealt with within a previous year was however issued during 1898.

Notwithstanding these renewals, however, the Act of 1895 provides for the withdrawal of half each leasehold to meet the requirements of settlement as they arise, compensation being allowed in the form of a further extension of lease for the other portion. The areas, the leases of which expire in 1902, 1903, and 1904, comprise the remainder of leaseholds, portions of whi h were withdrawn for settlement during 1896 and 1897 under the provisions of section 3 of the Act of 1895.

* This total of 118,338,018 acres is that obtained from the returns of holders of land. According to the Lands Department—see table 1, page 1—the total area of Crown Lands occupied on 31 December, 1898, was 127,669,598 acres. The latter figures are, however, in excess of the actual area leased—probably by not less than 4½ million acres—owing to the fact that portions of land held under one form of lease, and in respect to which application has been made for transfer to another form, appear under both forms pending consideration of the application. On the other hand as there are always a few returns which cannot be obtained from the landholders this accounts for a deficiency of about 5 million acres in the table above.

Note.—Large holdings extending into more than one county are returned in the county where the homestead is situated.

Mint Returns.—For further information respecting Gold, see Part "Financial Institutions."

NOTE.—For some years past an appreciable quantity of gold, not previously taken into account as the product of this Colony, has filtered from outlying districts in New South Wales to the Melbourne Mint. It has, therefore, been found necessary to slightly adjust the figures as given in previous issues of the Statistical Register.

PART VI.—MANUFACTORIES AND WORKS.

Commencing with the year 1896 the statistical returns have been compiled on a new basis, in order to secure uniformity with Victoria. Formerly an establishment where no machinery is used was included in the returns if at least five hands were employed therein; but the minimum number of hands accepted in such factories has now been reduced to four. Also milliners, dressmakers, and tailors, not hitherto enumerated, are now included; but all blacksmiths, not coming under any specific heading, have been excluded.

1898	2,839	44,673	7,845	52,518

* In accordance with a further agreement with Victoria, the number of home workers regularly employed in connection with factories is included in the general total, and as it has also been decided to treat creameries as adjuncts to butter factories, they are excluded from the number of separate establishments.

No. 2.—Number of Manufactories and Works, and Hands employed, 1889–98.

Boroughs and Municipal Districts—Municipalities Act.—Under the provisions of Act 31 Vic. No. 12 the Municipalities are divided into two classes, Boroughs and Municipal Districts, although the name of "Municipality" is common to both institutions. A borough shall, upon its first incorporation, contain an area of not more than 9 square miles with a population of not less than 1,000; a municipal district must not exceed 50 square miles, and shall contain a population of at least 500. The boundaries of each class of division must not overlap.

Sydney—The City of Sydney is classed as a Municipality, but is incorporated under a Special Act.

Aborigines.—The Aboriginal population was not included in the Census of 1861, while in 1871 and 1881 the wandering tribes were passed over, and only those who were civilized or in contact with Europeans were enumerated. It is probable that the total numbers for these years were, approximately—in 1861, 15,000; in 1871, 12,000; and in 1881, 10,000.

Excess of Immigration.—It is believed that not a few persons leave New South Wales without their departure being recorded; the figures given, therefore, are somewhat in excess of the truth.

Chinese Immigration.—Under Act. 52 Vic., No. 4, passed in the year 1888, no Chinese, unless exempted by the Act, are allowed to enter New South Wales either by sea or land without the payment of a tax of £100 each. The exemptions are—Chinese who are British subjects by birth, who have been naturalised in New South Wales, or those who arrive on a special mission under the authority of the British or Chinese Governments, and members of crews of vessels who land in the performance of their duties. Naturalisation of Chinese in New South Wales is now prohibited by the Act. Chinese naturalised in other Colonies are not entitled to the right of British citizenship in New South Wales.

(—) Denotes excess of Emigration.

Naturalisation Act.—The first Act empowering the Governor to grant letters of naturalisation in New South Wales was assented to in 1828 (9 Geo. IV, No. 6). The next important Act passed was 11 Vic., No. 39, amended by 17 Vic., No. 8. This was repealed in 1876 in favour of the Act 39 Vic., No. 19, which was repealed, together with the Act 9, Geo. IV, No. 6, by the Consolidation Act No. 21 of 1898, known as the "Naturalization and Denization Act of New South Wales, 1898." An alien who has resided in New South Wales for a term of not less than five years may apply to the Governor to be naturalised. Should a certificate of naturalisation be granted, the applicant must take the oath of allegiance prescribed by the Act. The Chief Secretary records all certificates of naturalisation, and receives a fee of one pound for each certificate issued. The register of certificates of naturalisation may be inspected upon payment of a fee of one shilling.

Naturalisation of Chinese.—A clause in the Chinese Immigrants Regulation and Restriction Act of 1861 (25 Vic., No. 3) provided that certificates of naturalisation should not be granted to Chinese. The Act was, however, repealed on the 20th November, 1867, but since the date of the passing of the Chinese Restriction and Regulation Act of 1888 (52 Vic., No. 4), no certificates of naturalisation can be issued to Chinese in New South Wales.

Naturalisation Certificates.—Certificates of naturalisation granted in other Colonies do not confer the right of British citizenship in New South Wales.

Divorce.—Under Act 55 Vic., No. 37, assented to 9th May, 1892, and 56 Vic., No. 36 (13th June, 1893), the grounds on which Divorce may be granted have been largely extended. This explanation accounts for the large yearly increase in the number of marriages dissolved in 1893 and each subsequent year. For full particulars of Divorce see Part "Law and Crime," and statistics in reference to Divorced persons published in the Report of the Registrar-General, "Vital Statistics."

Re-marriages.—The number of those persons who were divorced in New South Wales, and again married in the Colony cannot be separated in the above table, which shows the Re-marriages of persons who had been divorced either in New South Wales or elsewhere.

Primary Schools.—Under the Public Instruction Act (43 Vic. No. 23), which came into force on 1st May, 1880, it is provided that the instruction imparted at Public Schools shall be absolutely unsectarian. "Secular instruction" is defined by the Act as including "general religious teaching as distinguished from dogmatical or polemical theology."

Compulsory Attendance.—The Act makes it obligatory upon the parents or guardians of all children between the ages of 6 and 14 years (unless just cause of exemption can be shown), to cause such children to attend school for a period of not less than 70 days in each half-year. The minimum age for admission of pupils has been fixed at 5 years by a Ministerial Minute.

Causes of Exemption.—The causes of exemption defined by the Act are:—That the child is being regularly and efficiently instructed in some other manner; that from sickness or infirmity or from fear of infection or other unavoidable cause there is inability to attend; that there is no State School within 2 miles by the nearest road, or that the child has already been educated up to the standard of education required. Under this last clause, examinations for exemption certificates are held at the annual inspection of the schools.

Public School Fees:—The weekly fee is three-pence for each child up to four children of one family; for four or any larger number of the same family the charge is one shilling. Where inability to pay fees is shown payment is not enforced.

† After 31st December, 1898, bursaries and scholarships held at this school will be transferred to other schools.

Matriculated Students.—The total number of scholars and bursars who passed the Matriculation examination includes 17 who qualified at the Junior, and 7 at the Senior examination.

Scholarships.—In the High Schools, 60 scholarships are open for competition annually, viz., 30 in the Sydney schools, 10 in the Bathurst Girls' School, and 20 in the Maitland schools. A scholarship is tenable for 3 years, and entitles a scholar to a free grant of text-books and free education in a High School. In a few exceptional cases, scholarships have been made tenable in country Superior Public Schools.

Bursaries.—Bursaries are available for admission to the Superior Schools, High Schools, or Sydney Grammar School. In the metropolitan and sub-metropolitan districts, 20 half-bursaries are open to competition, and in the country districts, 10 full bursaries, winners of which are eligible for free education at the Superior Schools, High Schools, or Grammar School of Sydney. For the Maitland Boys' High School 10 full bursaries, and for the Maitland and Bathurst Girls' High Schools 5 full bursaries each, are available. A bursary is tenable for 3 years, and entitles a scholar to a free grant of text-books and free education in the above-named Schools. When a bursar is compelled to board away from home, an allowance not exceeding £30 per annum is made.

Examinations.—Half-yearly examinations for scholarships and bursaries are held during June and December.

University Bursaries.—Ten bursaries, 6 to boys and 4 to girls, tenable for 3 years at the Sydney University, are open to competition according to the position of candidates at the annual matriculation examination. Competitors must be under 18 years of age, and must have attended a State High School, a Public School, or as State Bursars the Sydney Grammar School, for the year preceding the examination. Bursars are entitled to a free grant of text-books and free education, together with an allowance not exceeding £20 per annum to those who need not board away from home, and not exceeding £50 per annum to those who must necessarily do so.

Collection of Returns in Electorates and Counties.—The particulars relating to private schools were formerly collected according to electorates; since 1892, however, the returns have been taken in counties. The boundaries of the former are liable to be varied by a change in the electoral law, while those of the counties are practically established on a permanent basis.

Counties.—Of the 141 counties into which New South Wales is divided, only in 73 are private schools in operation.

Primary Schools.—Under the Public Instruction Act (43 Vic. No. 23), which came into force on 1st May, 1880, it is provided that the instruction imparted at Public Schools shall be absolutely unsectarian. "Secular instruction" is defined by the Act as including "general religious teaching as distinguished from dogmatical or polemical theology."

Compulsory Attendance.—The Act makes it obligatory upon the parents or guardians of all children between the ages of 6 and 14 years (unless just cause of exemption can be shown), to cause such children to attend school for a period of not less than 70 days in each half-year. The minimum age for admission of pupils has been fixed at 5 years by a Ministerial Minute.

Causes of Exemption.—The causes of exemption defined by the Act are:—That the child is being regularly and efficiently instructed in some other manner; that from sickness or infirmity or from fear of infection or other unavoidable cause there is inability to attend; that there is no State School within 2 miles by the nearest road, or that the child has already been educated up to the standard of education required. Under this last clause, examinations for exemption certificates are held at the annual inspection of the schools.

Public School Fees:—The weekly fee is three-pence for each child up to four children of one family; for four or any larger number of the same family the charge is one shilling. Where inability to pay fees is shown payment is not enforced.

† After 31st December, 1898, bursaries and scholarships held at this school will be transferred to other schools.

Matriculated Students.—The total number of scholars and bursars who passed the Matriculation examination includes 17 who qualified at the Junior, and 7 at the Senior examination.

Scholarships.—In the High Schools, 60 scholarships are open for competition annually, viz., 30 in the Sydney schools, 10 in the Bathurst Girls' School, and 20 in the Maitland schools. A scholarship is tenable for 3 years, and entitles a scholar to a free grant of text-books and free education in a High School. In a few exceptional cases, scholarships have been made tenable in country Superior Public Schools.

Bursaries.—Bursaries are available for admission to the Superior Schools, High Schools, or Sydney Grammar School. In the metropolitan and sub-metropolitan districts, 20 half-bursaries are open to competition, and in the country districts, 10 full bursaries, winners of which are eligible for free education at the Superior Schools, High Schools, or Grammar School of Sydney. For the Maitland Boys' High School 10 full bursaries, and for the Maitland and Bathurst Girls' High Schools 5 full bursaries each, are available. A bursary is tenable for 3 years, and entitles a scholar to a free grant of text-books and free education in the above-named Schools. When a bursar is compelled to board away from home, an allowance not exceeding £30 per annum is made.

Examinations.—Half-yearly examinations for scholarships and bursaries are held during June and December.

University Bursaries.—Ten bursaries, 6 to boys and 4 to girls, tenable for 3 years at the Sydney University, are open to competition according to the position of candidates at the annual matriculation examination. Competitors must be under 18 years of age, and must have attended a State High School, a Public School, or as State Bursars the Sydney Grammar School, for the year preceding the examination. Bursars are entitled to a free grant of text-books and free education, together with an allowance not exceeding £20 per annum to those who need not board away from home, and not exceeding £50 per annum to those who must necessarily do so.

Collection of Returns in Electorates and Counties.—The particulars relating to private schools were formerly collected according to electorates; since 1892, however, the returns have been taken in counties. The boundaries of the former are liable to be varied by a change in the electoral law, while those of the counties are practically established on a permanent basis.

Counties.—Of the 141 counties into which New South Wales is divided, only in 73 are private schools in operation.

The first examination for junior clerks was held on 27th January, 1897. Candidates must be not less than 16 nor more than 21 years of age on the first day fixed for the examination, and must have resided in the Colony at least three years at date of application. Every candidate must forward to the Board within a prescribed time an application in his own handwriting, containing his full name, age, and address, and on his passing the examination a properly certified extract from some official register of births, or other satisfactory evidence as to age. He must in his application name two responsible persons to whom reference can be made as to character. A fee of 10s. must be paid into the Treasury before the candidate is allowed to sit for examination. Candidates are examined in the following subjects:—(1) Handwriting; (2) English (Dictation); (3) English (Composition); (4) Arithmetic; (5) Geometry; (6) Geography; (7) English History; but are allowed to take two of the following optional subjects:—(*a*) Mathematics; (*b*) English (a prescribed author, the same as that prescribed for the Junior Examination of the current year); (*c*) Latin; (*d*) French; (*e*) German; (*f*) Elementary Chemistry; (*g*) Elementary Geology. A minimum of 1,500 marks must be obtained, otherwise the candidate fails, and 60 per cent. of the full marks obtainable must be secured in Handwriting, English (Dictation), English (Composition), and Arithmetic. Failure to reach the percentage in the specially prescribed subjects is fatal.

The number of vacancies to be filled during the year is advertised. Up to the 26th March, 1899, of the 130 boys who passed the examinations 127 have been appointed to the Service, and 3 failed to pass the necessary medical examination. After admission to the Public Service, successful candidates are on probation only, and such probationary position is for a period of not less than six months.

Faculties.—There are four Faculties: Arts, Law, Medicine, and Science. A Dean is appointed by the Senate to each Faculty from time to time for a term not exceeding two years. There is also a Department of Engineering.

Professors.—During 1898 there were on the University Staff 14 Professors and 35 Lecturers and Demonstrators; of these, 7 of the former and 3 of the latter were paid out of the "Challis" Fund.

The curriculum of study for the LL.B. degree is five years, of which the first two are in the Faculty of Arts. The course of study for the degrees of M.B. and Ch.M. is five years. The course of study for the B.Sc. degree extends over a period of three years. The degrees of B.E. and M.E. are also given in the four branches of Engineering, viz., Civil, Mechanical, Mining, and Electrical Engineering. Candidates for these degrees receive instruction for a period of three years.

Ad Eundem Degrees.—Act 44 Vic. No. 22 empowers the Senate to confer *ad eundem gradum* degrees on graduates of other recognised Universities.

N.S.W. Medical Degrees.—Under an Order made by Her Majesty, with the advice of the Privy Council, as notified in the *Government Gazette* of 6th June, 1890, the second part of the British Medical Act of 1886 is made to apply to New South Wales. Holders of the degrees of M.D., M.B., and Ch.M., conferred by the Sydney University, are consequently recognised and may be registered in the United Kingdom in the same way as holders of similar degrees, conferred by a British University, are registered in New South Wales.

University Extension Lectures.—The University Extension Lectures were inaugurated in 1886, since which year lectures have been given annually in various centres of New South Wales, and from 1893 in Queensland. A Board not exceeding 18 members is appointed annually. Not less than 4 of these must be members of the Senate, and a similar number members of the teaching staff. Each course consists of six or ten lectures, and concludes with an examination of those who have attended the lectures. Certificates are awarded to the successful students. A few short courses of three lectures are given, with no concluding examination.

Finance.—The supervision of the financial affairs of the University is, subject to the direction and control of the Senate, entrusted to a Finance Committee consisting of the Chancellor, Vice-Chancellor, and four elected Fellows.

"Challis" Fund.—In 1880 the late Mr. J. H. Challis bequeathed his whole estate to the University, which, under the terms of the will, was transferred to that institution in September, 1889. The assets in Australia and England amounted to £268,224. The Senate has decided that the Fund shall be applied as permanent provision of income for educational uses. Through the agency of the Fund seven "Challis" Professorships and five "Challis" Lectureships have been established.

Other Foundations.—There are also the "Hovell" Lectureship, £6,000; the "Wentworth" Travelling Fellowship, now amounting to £1,980; and the Curatorship of the "Macleay" Museum, £6,000. In 1896 the University received a donation of £50,000 from Mr. P. N. Russell, to endow the Department of Engineering.

University Museums.—The "Nicholson" Museum of Antiquities, the "Macleay" Museum of Natural History, and the Museum of Normal and Morbid Anatomy, attached to the University, are accessible to the public under certain regulations.

Bursaries.—Bursaries are only conferred when satisfactory proof is produced that the means of the candidate, or of his parents or guardians, are insufficient to enable him to attend the University without such assistance. There are fourteen at the disposal of the University. These have all been created (on the initiation of the late Dr. Badham, when Professor of Classics) by private foundations, at a cost of £1,000 each, together with a margin in some cases to ensure prescribed annual awards amounting to £50. They are helped, on the part of the Senate, by an accompanying exemption from all lecture fees and the fee for matriculation. Women are eligible for not more than one half of the five bursaries, founded in 1881, by the late Mr. Thomas Walker, of Yaralla, Concord.

Public School—University Bursaries.—Ten other bursaries have been created by the Government in connection with the Public School system, but the University is not concerned in their award, although the Senate has conceded to the holders a similar exemption from fees. For information relating to these Bursaries, see note to Table No. 7.

Establishment of Technical Education.—Classes for Technical Education were first established at the Sydney Mechanics' School of Arts in 1865. The Working Men's College was started in 1873. In 1878 a sum of £2,000 was granted by Parliament for the organisation of the Technical College, and for five years the classes were carried on at the institution named. In 1883 a Board was appointed by Government to take over the management, but towards the end of 1889 the Board was dissolved, and the Technical Colleges were placed under the control of the Minister of Public Instruction. The new Technical College at Ultimo was opened to students in January, 1892.

Technological Museum.—This museum, situated in Harris-street, Ultimo, was established in 1879, and was first administered by a committee of management appointed by the trustees of the Australian Museum. It was taken over by the Department of Public Instruction on 1st January, 1890, and made an integral part of the Technical Education Branch. Special endeavours are being made to collect the raw products and samples, illustrative of the industries and manufactures of the Australian Colonies; and the museum contains a large number of native mineral and vegetable products, and a comprehensive series of specimens of wool. Over 82,000 exhibits in all have been acquired, by purchase, gift, loan, and exchange.

Australian Museum.—The Australian Museum was founded in 1836. It was originally connected with the Botanical Gardens, and was located in a room in Macquarie-street, Sydney, but was afterwards removed to the Surveyor-General's Office, and again, in 1849, to its present site. Its affairs were managed by a committee until 1853, when the Museum was incorporated by Act of Parliament (17 Vic. No. 2). The Act provides for twelve official Trustees, one Crown Trustee, nominated by the Governor, and twelve elective Trustees. Provision was also made for a State endowment of £1,000 per annum, which is supplemented by annual Parliamentary appropriations as required. It is essentially a Museum of Natural History.

The Public Library of New South Wales.—The "Free Public Library" was established on the 1st October, 1869, when the buildings and books of the "Australian Subscription Library" were purchased by the Government. During the years 1886-7 considerable additions were made to the premises, a large portion being entirely rebuilt. The new buildings were opened in April, 1890. In 1877 the operations of the Library were extended by a Lending Branch being attached. Under certain simple regulations books may be borrowed by individuals, country Libraries, Mechanics' Institutes, and Groups of Students in Country Districts, free of charge. The Newspaper Room, formerly attached to the Reference Library, was, in February, 1895, transferred to the Lending Branch. During 1895 the name "Free Public Library" was changed to "The Public Library of New South Wales."

Whipping.—Under the Criminal Law Amendment Act (46 Vic. No. 17) provision has been made for whipping as an additional punishment, chiefly for offences classed as wanton and unprovoked assaults and indecent exposure. The Court adjudicating must, however, consist of two or more Justices, one of whom shall be a Police or Stipendiary Magistrate. In the Metropolitan District the cases are decided before two Stipendiary Magistrates.

Higher Courts.—*Central Criminal and Circuit Courts.*—Judges of the Supreme Court preside over the Central Criminal and the fifteen Circuit Courts. *The Courts of Quarter Sessions* are presided over by Chairmen who are also Judges of the District Courts. There are seven Chairmen, two of whom preside over the Metropolitan, Suburban and Hunter Districts, and one over each of the five remaining districts. Accused persons in each jurisdiction are tried by a jury of twelve.

Jurisdiction.—The Central Criminal and Circuit Courts, and Courts of Quarter Sessions, have co-ordinate jurisdiction excepting as regards capital charges which cannot be dealt with by Courts of Quarter Sessions.

Trial Bay Prison and Breakwater.—Prisoners under sentences to penal servitude, or to hard labour on the roads and public works, or to imprisonment with hard labour, become eligible for employment upon the public works at Trial Bay Prison under the following conditions, viz. :—Prisoners under sentences from three to five years, who have not been punished for misconduct within the previous six months, and favourably recommended by the Gaolers, at a period twelve months before they would become eligible for discharge under the ordinary remission regulations, and in anticipation of such discharge; in sentences of five to ten years similarly at a period of two years anterior to discharge; in sentences of ten years and upwards at a period of two years and six months anterior to discharge. The Breakwater now under construction is being supervised by Officers of the Public Works Department, and the prisoners engaged in work, who are entirely under the control of the Comptroller-General of Prisons, receive small monetary remuneration, as well as being supplied with rations and clothing which is not of the prison pattern.

First Offenders Probation Act of 1894 (57 Vic. No. 23).—Under the provisions of this Act any person, convicted on the first offence, may be set at liberty on certain conditions instead of being sent to prison. Although the sentence is passed in the usual form, the Court has power to suspend its execution, upon the offender entering into a recognizance, with or without sureties, for his good behaviour, for a period of not less than twelve months. The offender is examined for the purpose of future identification, and must report himself to the police at least once in every three months. Should he fail to do so, or seriously misconduct himself during the period of probation, he is liable to be arrested, the recognizance forfeited, and committed to prison to complete his sentence. If, however, his conduct shall have been satisfactory, he shall be discharged from the sentence, and the conviction for which it was imposed shall not be brought against him on any subsequent occasion.

Breaches of the Act.—During 1898 two offenders, who were at liberty under the provisions of the First Offender Probation Act, had their recognizances forfeited.

Garnishee Cases.—The Court may, upon the *ex parte* application of any creditor obtaining a judgment, order that all debts due by a third person (the garnishee) to the defendant shall be attached to meet the judgment debt, and may, by a subsequent order, direct the garnishee to pay as much of the amount owing by him as will be sufficient to satisfy the judgment debt.

Interpleader Cases.—When a claim is made to goods held under a writ of execution by a person not party to the suit the Court may, upon application to the bailiff, decide the claim.

New Trial Applications.—When a judgment has been given against the defendant in his absence, the Court may set it aside and grant a new trial.

Examination of Judgment Debtors.—The Court may, on the application of a judgment creditor, order the judgment debtor to be orally examined as to whether any and what debts are owing to him.

Appeals and New Trial Motions.—During the year ended 1st March, 1899, there were 4 appeals from the judgments of these Courts, of which 2 were affirmed. There were also 18 motions for new trials, of which 8 were granted. The right of appeal can only be exercised in causes in which the amount claimed exceeds £10, and must be made either on points of law or in respect to the admission or rejection of evidence.

Causes tried by Jury.—Of the 3,005 causes tried during the year 1898-99, only 45 were tried by Jury. When the amount in dispute exceeds £20 either of the parties may, by giving notice to the Registrar of the Court, have a Jury summoned.

Probate and Administration.—By the Probate Act of 1890 (54 Vic. No. 25), the jurisdiction previously vested in the Primary Judge in Equity was transferred to the Supreme Court and its Probate Jurisdiction, and such Judge as might be appointed Probate Judge. The duties performed by the Prothonotary and Ecclesiastical Clerk were at the same time transferred to the Registrar of Probates.

Gross and Net Value of Estates.—The figures from the Probate Court and Stamp Duties Department (see Part "Public Finance") relating to transactions in the estates of deceased persons do not agree. The Court gives the gross value of the estates, and includes those estates which, after investigation, are found not to be subject to duty. The number of petitions is also swollen by probates on some estates being taken out a second time. The amount given by the Stamp Duties Department represents the net value of the estates.

Estates of the Value of £1,000—How dealt with.—Prior to the passing of the existing Act, all applications for probate and letters of administration (except where the gross amount of the estate did not exceed £100) were made in open Court, and also applications to pass accounts of executors or administrators. Under the present Act the Registrar grants probate and letters of administration where the estate does not exceed £1,000 in value, it being only necessary to apply in open Court in cases beyond that amount. It is now also only necessary to apply in Court for the allowance of executors and administrators' accounts where commission is applied for, or in case of appeal from the decision of the Registrar.

Small Estates—Value £300 and under.—In pursuance of the provisions of the "Probate Act of 1890 Amendment Act" (56 Vic. No. 30), probate and letters of administration may be granted without the intervention of a solicitor in estates sworn not to exceed £300.

He is empowered to apply for an order to collect the estate of any deceased person leaving real and personal estate who shall have died intestate, and leaving no widow or next of kin resident within the jurisdiction of the Court, or when the person shall have died testate, but leaving no executor, or no executor willing and capable of acting in execution of his will, and in a few other instances.

A rightful claimant may afterwards, however, obtain payment thereof, but without interest from the date of payment to the Treasury.

Balance of Intestate Estates belonging to Minors.—The moneys belonging to minors are paid under order of Court, and invested in the Savings Bank of New South Wales on account of minors, till they arrive at the age of 21. The amount so invested on the 31st December, 1898, was £728.

Grounds for which Divorces were granted, see Table 85.

First year of Divorce Act.—Prior to the passing of the Matrimonial Causes Act of 1873 (36 Vic. No. 9), the Supreme Court of N.S.W. had no jurisdiction in divorce. **The existing Act** (55 Vic. No. 37) was assented to on the 9th May, 1892, but did not come into force, owing to an informality, till the 6th August. During 1893 an amending Act (56 Vic. No. 26) was attached.

Jurisdiction.—In addition to granting Decrees for Dissolution of Marriage, for Judicial Separation, for Nullity of Marriage, for Restitution of Conjugal Rights, and for Jactitation of Marriage (no petitions for which have as yet been filed in this Colony), the Court also deals with questions of alimony, custody, maintenance, and education of children, damages against an adulterer, and settlements of property.

A suit *in forma pauperis* cannot be proceeded with without a Judge's order, and to obtain such it is necessary to produce the certificate of the Registrar and an affidavit of the party applying as to means of living, and, where a suit is by a wife, the means of her husband, and that he or she (after the payment of just debts) is not in possession of property worth £25, except wearing apparel and household furniture.

Decrees Nisi.—After a Decree *Nisi* has been granted, it can be made absolute at any time subsequent to the date fixed by the Court for that purpose. Neither party can re-marry until after fourteen days from the date of the Decree *Nisi* having been made absolute

Grounds for Divorce.—The chief grounds for divorce under the old Act were adultery since marriage on the part of the wife, and adultery and cruelty on the part of the husband. In addition to the foregoing causes, petitions for divorce can now be granted on any of the following grounds:—

Husband v. Wife.—Desertion for not less than three years; habitual drunkenness and neglect of domestic duties for a similar period; being imprisoned for three years and upwards under a commuted sentence for a capital crime, or under sentence to penal servitude for seven years and upwards; attempt to murder or inflict grievous bodily harm, or repeated assaults and cruel beatings during one year previous to presentation of Petition.

Wife v. Husband.—Adultery, provided that at the time of the institution of the suit the husband is domiciled in New South Wales; desertion for not less than three years; habitual drunkenness for the same period, together with cruelty or neglect to support; being imprisoned for three years and upwards under a commuted sentence for a capital crime, or under sentence to penal servitude for seven years and upwards, or having within five years undergone sentences amounting in all to not less than three years; attempt to murder or inflict grievous bodily harm, or repeated assaults and cruel beatings during one year previous to presentation of Petition.

Period of Domicile.—To entitle either party to seek relief on any one of these grounds he or she must have been domiciled in the colony at the time of instituting the suit for three years and upwards, and should not have resorted to the colony for the purpose of the suit. When a wife seeks for a decree on the ground of three years desertion, if she was domiciled in New South Wales when the desertion commenced, she shall not be deemed to have lost her domicile by reason of her husband having thereafter acquired a foreign domicile.

(b) **Release of Estate.**—A bankrupt may have his estate released from sequestration after the acceptance and approval of a composition or scheme of arrangement, or if all the creditors are paid in full, or have given him a legal quittance of the debts due.

(c) **Certificate of Discharge.**—Three months from the date of sequestration a bankrupt may give notice by advertisement of his intention to apply for a Certificate of Discharge. The application is heard within thirty days of the date of the first publication of the advertisement, and the Judge receives a report from the Official Assignee, and may either grant or refuse an absolute order of discharge.

(d) **Composition and Arrangement.**—The creditors have power to accept, and the Judge to approve, of a proposal for a composition, or for a scheme of arrangement, provided that it has been confirmed by a majority in number representing three-fourths in value of all proved creditors.

Petitions withdrawn and refused.—Petitions withdrawn apply wholly to Creditors' petitions withdrawn in consequence of payment of amount of claims, and the petitions refused represent those cases in which the Judge or Registrar is not satisfied that acts of Bankruptcy alleged have been committed.

Acts under which Registered.—Mortgages on Real Estate are registered either under the Deeds Registration Act of 1843 (7 Vic. No. 16), or the Real Property (Torrens') Act of 1862 (26 Vic. No. 9.)

Amount of Consideration incomplete.—In many instances the amounts lent upon mortgage by banks are not stated, but simply the words "valuable consideration" or "cash credit" inserted in the deeds. As this occurs frequently when the properties mortgaged are evidently of great value, the absence of the amounts must materially affect the returns, and, as a consequence, the amounts under the head of "mortgages" are incomplete. It must be borne in mind, therefore, that the "Amount of Consideration" stated applies only to cases in which the specific amounts are stated in the deeds, whether the amounts be the sums actually advanced or not.

The Discharges do not include foreclosures, which, if not formally registered as discharges, are nevertheless mortgages cancelled. The returns of discharges are therefore incomplete, and the discrepancy between the mortgages contracted and discharged is largely due to this cause.

Sums Secured both by Lien on Wool and Mortgage of Sheep.—When any sum has been secured, both by a lien on the wool and by mortgage of the sheep, the amount is included under the head of mortgages only—thus in 1898, the gross amount lent on liens was £1,160,182; but from this has to be deducted the sum of £111,918, secured both by lien on the wool and mortgage on the sheep, so that the net amount lent on lien was £1,048,264.

***Discharges and Foreclosures.**—It is not compulsory to register discharges; consequently no records exist of Bills of Sale terminated voluntarily, or by seizure with Judge's order to discharge. The large discrepancy between the number "Filed" and "Satisfied" is accounted for by this fact.

All Mortgages on personalty other than Wool, Live Stock, Growing Crops, Ships, and Shipping Appliances, are filed and entered at the Supreme Court under the "Bills of Sale Act of 1855."

For particulars of Mortgages on Ships and Shipping Appliances, see Part "Shipping."

The Copyright Act (42 Vic., No. 20) was passed in May, 1879, and became law on the 1st July following. Under the International Copyright Act, 1886 (49 and 50 Vic., clause 33), and the Orders in Council thereunder, the greater part of the body of Imperial Copyright law applicable to literary and artistic works together with the Copyright Convention of Berne became reciprocally applicable to Great Britain and the countries that are parties to the Convention, namely:—Great Britain with her Colonies and Possessions, France and her Colonies (including Algiers), Germany, Italy, Spain with her Colonies, Switzerland, Luxembourg, Monaco, Hayti, Belgium, Montenegro, and Tunis; consequently, it is now possible for Colonial Copyright works to receive International protection within the limitations prescribed by law. The same Act places Colonial Copyright in literary works upon the same footing as Imperial Copyright, that is to say, a work first published in a colony and by registration in such colony obtain protection throughout the British dominions. The registrations effected under the Act up to the end of 1898 amounted in number to 2,634, receipts to £822, and disbursements (salaries) to £5,900.

Duration of Copyright.—Books are protected for the natural life of the author and for 7 years after his death, or for 42 years from first publication, whichever may be the longer period; paintings, drawings, sculpture, and engravings, for 14 years; photographs, 3 years; articles composed wholly or chiefly of metal, wood, stone, cement, glass, earthenware, ivory, bone, and similar substances, 3 years; paperhangings, carpets, oilcloths, and all kinds of textile and woven articles, 2 years. To obtain the benefits of the Act in reference to designs, every article must bear the word "Registered," together with the name of the proprietor and the date of registration.

No. 18.—Causes of Insanity of Patients Admitted to State Hospitals for the Insane, and Licensed Houses, 1897–98.

Causes of Insanity.—These "Causes" are taken from the statements in the papers received with the Patients on admission, and are verified or corrected as far as possible by the Medical Officers.

Number of Causes, &c.—Number of Patients.—The "predisposing" and "exciting" causes are both enumerated in all cases where the predominating causes could not be distinguished, so that the aggregate of the totals for each of these years exceeds the total number of patients yearly admitted. During 1897 the number of patients admitted and readmitted was 692, while the causes were 772; in 1898, the numbers were 730 and 789 respectively.

No. 2.—Receipts of Sydney Branch, Royal Mint, 1855-98.

Branches of Royal Mint.—The Sydney and Melbourne Branches of the Royal Mint were the only institutions such a kind in existence during 1893 in the British Possessions, the Mints at Calcutta and Bombay being established on a different basis, but a branch at Perth, W.A., was opened on the 20th June, 1899. The Sydney Branch was opened on the May, 1855, and that of Melbourne on 12th June, 1872. Gold only is coined in the Branch Mints, the silver and bronze coin required for circulation in the Australasian Colonies being obtained from the London Mint. The expenditure of the Colonial establishments is borne by the respective Governments, the amount granted annually to the Sydney Mint by New South Wales being £15,000; this amount, however, is refunded to the Government under the head of Mint Receipts.

Light Gold and Silver Coins.—Light gold coins in parcels of not less than £50 nominal value are received at the Sydney Mint and recoined free of charge, but depositors are required to bear the loss by abrasion. The worn silver withdrawn from circulation is forwarded to England for recoinage.

Seignorage.—The difference between the nominal value of silver and the average price per standard ounce paid by the London Mint represents the seignorage or gross profit. The coinage or nominal value of silver per standard ounce is 5s. 6d. and the price per ounce paid by the London Mint during 1898 averaged 26$\frac{1}{16}$d. The difference, 39$\frac{1}{16}$d., represents the seignorage accrued; against this, however, must be placed the loss to the Imperial Government by purchase of worn silver at its nominal value.

No. 20.—Deposits in Banks of Issue, 31st March, 1899.

Preferential Capital represents Fixed Deposits capitalised on and after the dates of reconstruction of the institutions. The holders of these deposits after a certain number of years become ordinary shareholders, but with one exception the preference either as regards capital or dividends, ceases. (See Supplementary statement).

Inscribed or Perpetual Stocks.—Formerly the practice of issuing stocks was confined to one institution—the Bank of Australia (Limited); but, since 1893, the English, Scottish, and Australian Bank (Limited), the Australian Joint Stock Bank (Limited), the Queensland National Bank (Limited), and the Bank of North Queensland (Limited), have issued Inscribed or Perpetual Stocks.

Extended or Deferred Deposits.—Under the terms of reconstruction, the eight reconstructed banks operating in New South Wales were empowered to gradually liquidate the Fixed Deposits by payments in instalments extending over a series of years. The Commercial Banking Company of Sydney (Limited) and the Bank of North Queensland (Limited) have released the whole of the extended fixed deposits long before the dates agreed upon, and some of the other institutions have prepaid part of their deposits.

Australian Joint Stock Bank (Limited)...	Interest 3½ per cent. per annum, to be increased to 4½ per cent. if profits allow. Repayable at option of Bank after 1907, on six months' notice being given.
Queensland National Bank (Limited) ...	Interest 3½ per cent. per annum. Redeemable out of surplus profits on six months' notice being given. Principal immediately repayable if interest not paid, or Bank wound up.
Bank of North Queensland (Limited)...	Interminable Debenture Deposits ... These are on the same footing as the ordinary fixed deposits.
Union Bank of Australia (Limited) ...	Inscribed Stock Deposits ... These are on the same footing as the ordinary fixed deposits.
English, Scottish, and Australian Bank (Limited).	Two classes of perpetual stocks are in existence, viz., 4 per cent. Debentures and 4½ per cent. Inscribed Stocks. The 4½ per cent. Inscribed Stock is divided into preferred and deferred, the former bearing a fixed rate of 3 per cent. and the latter a dividend of 3 per cent. from the profits (if any), and, if earnings allow, 4½ per cent. after placing £15,000 annually to Reserve Fund. The Deferred Inscribed Stock ranks after the Preferred Inscribed Stock, and both of these after the Debenture Stock, Terminable Deposits, and New Fixed Deposits.

Bank Note Composition.—Prior to the passing of the Bank Notes Act of 1893, the composition payable by the Banks of Issue under the Stamp Duties Act of 1880 was at the rate of 2 per cent. on the average value of notes in circulation, but under the provisions of the Act mentioned, the rate was increased to 2½ per cent. As the Bank Notes Act lapsed in November, 1895, the composition paid since that date was charged at the old rate of 2 per cent. The Queensland National Bank (Limited) and the Bank of North Queensland (Limited) have no note circulation in New South Wales, the notes shown above for the latter bank being old notes not yet presented.

The Bills of Exchange Act (51 Vic. No. 2) was passed in 1887. Under this measure the law relating to bills of exchange, cheques, and promissory notes was codified. The form and interpretation of these instruments are specified, and the Act comprehensively defines the legal position of the bank, the drawee or payee, the drawer or payer, and the transferee and the transferrer, &c.

Deposit Rate Reduced.—From the 4th March, 1896, the rate of interest was reduced to 1½ and 3 per cent. per annum for deposits for 6 and 12 months respectively.

NOTE—The Banks' Exchange Settlement, or Bankers' Pool, was established on the 18th January, 1894, in order to facilitate the settlement of exchange of notes, cheques, &c., between the 13 banks of issue transacting business in New South Wales. The "Pool" consists of £700,000 in gold, the contribution to which by each bank is regulated by the volume of the business transacted. The gold, which is placed in the hands of three Trustees, is deposited in safes in the vaults of three of the banks, and cannot be circulated or disturbed. No bank is permitted to allow its daily credit balance to fall below 25 per cent. of its fixed contribution to the £700,000.

No. 25.—Liabilities and Assets of Registered Companies receiving Money on Deposit, June quarter, 1899.

Companies furnishing Quarterly Returns of Local Assets and Liabilities.—Since 1841 the Banks of Issue have been obliged to furnish quarterly returns of local Assets and Liabilities; but it was not till 1879, under an Act passed in that year, that other registered Companies receiving money on deposit in New South Wales were required to furnish quarterly statements similar to those of Banks of Issue.

The seventeen Companies which furnished quarterly statements, and which, with the exception of Goldsbrough, Mort, & Co. (Limited), are included with the 570 Companies shown in Table No. 26, practically represent all the institutions which are dependent on outside capital, exclusive of the few established prior to 1879.

Companies not furnishing Quarterly Returns of Local Assets and Liabilities.—Companies formed prior to 1879, and receiving money on deposit, are not required to furnish quarterly statements of local Assets and Liabilities. The number of such, however, is very small. Registered Companies which do not receive money on deposit are not subject to the provisions of the Act which requires the publication of the Quarterly Returns.

No-Liability Mining Companies.—The first Act for the regulation of these Companies (44 Vic. No. 23) was passed in March, 1881, and continued in force till the 2nd October, 1896, on which date the "No-Liability Mining Companies Act" (60 Vic. No. 15) was passed, and all subsequent transactions were subject to the new provisions. Under clause 26, a copy of the balance-sheet of each Company must be filed at least once a year at the office of the Registrar of Joint Stock Companies. Clause 52 provides that not less than seven persons can continue to carry on the business of any Company registered under the Act.

Companies operating outside New South Wales.—Under the old Act Companies whose places of operation (or mines) were outside New South Wales, could not register in the Colony. Under the new Act this has been altered, and Western Australian and other mining Companies are now being registered in New South Wales.

Fees.—The maximum fee for registration under the previous Act was 1s.; but under the present measure the fees range from 4d. to £1.

No. 30.—Savings Bank of New South Wales: Balance-sheet on 31st December, 1898.

The Savings Bank of New South Wales was established in 1832 under Act 2 William IV No. 12. The Act provided that the Governor should be President, and the management be vested in nine trustees appointed by the Government, one of whom was to be vice-president.—Under an amending Act, passed in 1853, the number of trustees was not allowed to exceed eighteen, but the trustees were to nominate a managing trustee, who, if not already a trustee, became one by virtue of his office. A further Act was passed in 1862 termed the Savings Bank Consolidation Act.

Ratio of Assets to Liabilities.—The ratio of Assets to Liabilities on the 31st December, 1898, was £1 0s. 11½d. to every £1 liability.

Other Lines.—In addition to the above there are several branch lines connected with the coal and other mines in the Colony, but as regards length they are unimportant. During 1890, legislative sanction was obtained for the construction of a private line from the flux quarries at Tarrawingee to the tramway system of the Broken Hill mines, a distance of about 39 miles. Recently authority was given by Parliament for the purchase of the line for the sum of £15,000.

Private Railways under Construction.—During 1893 authority was obtained for the construction of two private lines, viz., Menindie to Broken Hill, in the Western district, and Rosehill to Dural (Simpson's), in the Parramatta district. The latter has been constructed as far as Pennant Hills Road, a distance of 3 miles 28 chains, but, with the exception of the small portion leading to the Rosehill Racecourse, the line has not yet been opened for traffic. Authority was recently given by Parliament for the purchase of this line, and it will be shortly handed over to the Railway Commissioners. The total length of the line when completed will be 9 miles.

Standards.—The Weights and Measures Consolidation Act (No. 19 of 1898) repealed the original Acts (3 Wm. IV, No. 4, and 16 Vic. No. 34). Under the provisions of the existing Act, the standard Imperial Weights and Measures of Great Britain are declared to be the standards for New South Wales. The Act also provides that all articles sold by weight must be sold by Avoirdupois, except gold, silver, platina, diamonds, or other precious stones, which are to be sold by Troy weight, and drugs, which, when sold by retail, may be sold by Apothecaries' weight.

Inspectors.—The Inspectors of Weights and Measures administer two Acts, viz., the Bakers' Act (6 Wm. IV. No. 1) and the Weights and Measures' Act (No. 19 of 1898). The Sydney Coal Delivery Acts (9 Vic. No. 8, and 10 Vic. No. 2) only apply within the Metropolitan District to a radius of 5 miles from Macquarie place. In the country districts the inspectors are appointed by the local Magistrates, the persons selected being generally Sergeants of Police, who, however, are not subject to any control beyond the provisions of the Weights and Measures Act, and consequently no records are available as to material dealt with.

Prosecutions.—The prosecutions in the Metropolitan area during 1898 by the inspector numbered 24, of which 2 ere instituted under the Weights and Measures Act, and 2 under the Bakers' Act. The total amount of fines and costs o ourt during year was £35.

***Coal Mines Regulation Act (60 Vic. No. 12).**—Under the provisions of clause 42 of this Act, the inspectors o eights and measures under Act 16 Vic. No. 34 must examine all weights, scales, balances, &c. used in coal mines, at leas nce in every six months.

The General Account.—The "General Account" consists of the General Trust Funds (subject to the Audit Act), the Consolidated Revenue Fund, the two Special Suspense Accounts, the Special Trust Funds (not subject to the Audit Act), and the General Loan Account.

The Public Account.—The "Public Account," as defined by the Treasury, consists of the Consolidated Revenue Fund and the General Trust Funds (subject to the Audit Act). It must be mentioned, however, that the Audit Act recognizes only one "Public Account," whether the transactions are connected with Consolidated Revenue, Trust Funds, or Loans.

Special Suspense Accounts.—The "Centennial Park Account" (51 Vic. No. 9), and the "General Post Office New Street Resumption Account" (53 Vic. No. 13), originally formed part of the Consolidated Revenue Fund. The former was opened in 1887 and placed in suspense during 1894; the latter was opened in 1890 and placed in suspense in 1892. The debit balances on the 30th June, 1898, have been covered by advances from the Trust Funds.

* Half-year ended 30th June. † Year ended 30th June. ‡ Advances outstanding in excess of liabilities.

NOTE.—According to the Auditor-General, the cash credit balance of the new account on the 30th June, 1898, was £167,274, while there was a cash overdraft of £41,012 on the old account instead of the cash credit of £33,988 shown above. This is accounted for by the Auditor-General placing the whole sum of £150,000, Treasury Bills redeemed in 1895-6, to the old account instead of charging half that sum to the new account current.

No. 4.—Operations on the Consolidated Revenue Fund since 1st July, 1895.

NOTE.—It will be seen from the first part of the above table that the total Revenue for the two years 1895–6 and 1896–7 was £9,345,703 and £9,337,617 respectively, while the total Expenditure for the same periods, including redemption and cancellation of Treasury Bills, was £9,893,174 and £9,697,011 respectively. The detailed accounts published in the Statistical Register give the Revenue as £9,394,611 and £9,469,694, and the Expenditure as £9,776,331 and £9,531,779, which sums are increased to £9,926,331 in 1895–6 by the redemption of Treasury Bills, and to £9,831,779 in 1896–7 by the redemption and cancellation of bills. The differences consist chiefly in the exclusion from the above table of temporary advances recovered during the same year in which they were made.

NOTE.—The Trust Funds are divided into two classes—those operated upon directly by the Treasury and those operated upon by officers of departments in whose names the accounts stand. The funds operated upon directly by the Treasury are subject to the Audit Act, and with the Consolidated Revenue Fund constitute the "Public Account," as defined by the Treasury. The other trust funds are not subject to the Audit Act, nor do they form part of the Public Account; they are, however, part of the "General Account," and as such constitute portion of the "General Banking Account."

NOTE—The difference between the amounts outstanding at the close of each year does not, as a rule, represent the actual increase or decrease in the debt. Repayments of loans are generally effected under the head of renewals, and in following out this practice, it is usually found necessary to float the redeeming loan some time before the due date of the maturing loan; hence the liability appears twice in the Debt statement till the bonds or stocks are retired.

London Agent.—Since 1883 all financial operations connected with the issue and inscription of Stock have been conducted by the Bank of England. The Bank charges ½ per cent. per £100 Stock on all loan issues, and in addition annually receives for the inscription and management of Stock (including the payment of the half-yearly dividends), £500 per million for the first ten millions, £450 for the next five, and £400 per million for all subsequent amounts.

Local Agent.—The Bank of New South Wales, since the middle of 1893, has transacted all the local business connected with the "Government Banking Account," and also acts as Financial Agent for the Colony in Victoria. The business carried on includes the payment of the half-yearly dividends on local Debentures and Funded Stock, and all Banking transactions connected with the Consolidated Revenue Fund, Trust Funds, and General Loan Account. The Treasury, however, in local loan issues, directly conducts the operations connected with the issue of New South Wales Funded Stock and Treasury Bills. During 1895–96 a current account was opened at the City Bank of Sydney; and during 1896–97 at the Commercial Banking Company of Sydney, Limited.

"Old Loans Account."—The £450,000 loan floated "Under various Acts" (commonly known as the "Talking Loan") was floated during 1871 for the purpose of adjusting the amounts short and over raised under Act 17 Vic. No. 34, and all subsequent Acts to 34 Vic. No. 2. These loans constituted what is termed the "Old Loans Account," which formed part of the Consolidated Revenue Fund till 1891, when the account was finally closed by the balance at the end of that year (£132,326 0s. 4d.) being transferred to the "General Loan Account" under the provisions of the Loan Act 4 Vic. No. 33, as amended by Act 55 Vic. No. 35.

"General Loan Account."—From 1871 a new system of treating the proceeds of Loans was adopted. A "Separate Loan Fund" was established for each Loan floated on and after that date. The £374,900 Loan of 1871 (35 Vic. No. 5) was the first one dealt with under the new conditions. This practice was continued till 1879, when, under the authority of the "Loan Fund Amalgamation Act" passed in that year, the "Nine Separate Loan Funds" established during the period 1871–9, and all subsequent loans, were amalgamated into one "General Loan Account." The Act declares that no portion of the Amalgamated Funds shall be used for any other purpose than Loan Services.

* The decrease in capital shown in the City and Suburban Tramways is due to the transfer of rolling stock to some of the other lines, while in the case of the North Shore Cable line, the falling-off is due to the land taken for the St. Leonards Railway being transferred to the Railway Capital Account.

Metropolitan Fire Brigades Board.—The Board, established in 1884 under Act 47 Vic. No. 3, consists of six members, viz., the chairman, appointed by the Government, and five elected members, one of whom is appointed by the Municipal Council of Sydney, one by the other Municipalities within the proclaimed area, two by the Fire Insurance Companies carrying on business in New South Wales, and one by the Volunteer Fire Companies. The elected members retire every two years, but are eligible for re-election. Towards the annual outlay the Government, the Municipalities, and the Fire Insurance Companies each contribute one-third. The Municipalities contribute *pro rata* to the assessed annual value of ratable property in their respective districts, and each of the Fire Insurance Companies proportionately to the net risks held on properties situate within the Metropolitan District. Sydney Harbour is outside the jurisdiction of the Board.

Ship Fires.—For the purpose of dealing with ship fires the pilot steamer "Captain Cook" has been fitted by the Marine Board of New South Wales with a steam-pump, having a capacity of 36,000 gallons per hour.

Subsidies of Board.—The Board grants the subsidy, shown above, to each company on its obtaining a certificate of efficiency from the Superintendent. In addition, a considerable amount was spent by the Board in the provision and repair of fire appliances, and for the erection and repair of stations.

Volunteer Fire Companies.—Companies situated within the Metropolitan district are registered at the office of the Board, and are subject to the inspection and orders of the Superintendent of Metropolitan Fire Brigades, appointed by the Government under the Act. All the hose and a great portion of the other appliances are the property of the Metropolitan Fire Brigades Board. The Railway Fire Brigade and the Sydney Meat Preserving Company's Fire Brigade receive no subsidies from the Metropolitan Fire Brigades Board.

Fire-alarm Telephones.—Telephones connected with the fire stations are placed in fire-alarm boxes in all the important localities of the city and suburbs. The telephonic system at the end of 1898 consisted of 96 telephones, 18 telephone shutter-boards, and 221 telephone fire-alarms. The length of telephone and telephone fire-alarm wire erected was 149 miles. Most of the volunteer fire stations, theatres, music halls, &c., are also in direct communication with the Metropolitan Fire Brigade stations. The various police stations are also in communication, and public offices, hotels, wharves, business firms, and private houses that are connected with the General Post Office Exchange, can transmit calls for fires at any hour of the day or night, and arrangements have been made for the watchmen employed by business houses to report to the head-quarters station several times every night.

Country Fire Brigades.—Under Clause 20 authority is given to extend the provisions of the Fire Brigades Act to the country districts, but owing to an ambiguous clause in the Statute, the Fire Insurance Companies and Municipal Councils do not always consider themselves called upon to contribute towards the expense of maintenance of the Brigades as defined by the Act. The Country Fire Brigades Boards, however, are entitled to receive subsidies from the Government. Some of the abovementioned Municipalities have not taken any further steps than having been gazetted.

Inquests on Fires.—Act 24 Vic. No. 10 provides that "when any property, real or personal, shall be destroyed or damaged by fire, the Coroner having or exercising jurisdiction at or in the place where such fire shall have happened, shall, if he consider it a fit case for so doing, make an inquisition into the cause and origin of such fire." Jurors and witnesses are summoned, and the mode of procedure is the same as in inquests in cases of deaths. The Coroner can, if the jury find that any person has wilfully set fire to property, exercise the same authority as in the cases of persons charged with murder or manslaughter.

Licenses for Public Vehicles.—Prior to 1873 the regulation of street traffic was under the City Council. In that year an Act (36 Vic. No. 14) was passed, which transferred the control of the traffic to three Transit Commissioners, the number of whom was increased in 1886 to four by Act 50 Vic. No. 14. The Board consists of the Mayor of Sydney (Chairman), the Inspector-General of Police, a representative of the suburban municipalities, and the fourth is elected by the licensees coming under the Act. The two latter are annually elected.

No. 35.—Water Rights Act.

The Water Rights Act vests all large natural supplies of water in the Crown, and establishes a system of licenses for works for water conservation, irrigation, and drainage. Before the passing of the Act such works on creeks and rivers constructed by private individuals were unprotected, and were liable to be destroyed by any person who considered that the existence of the work was opposed to his interests. Under the Water Rights Act questions as to the propriety of licensing works are decided after full inquiry, and when a license is granted for any work any interference with that work is illegal. The Act acknowledges the right of riparian owners to water for domestic and stock purposes and for the irrigation of gardens not exceeding 5 acres in extent. Since the Act came into operation about 600 applications for licenses have been received. These in the great majority of cases relate to dams on creeks and rivers, but a considerable number are for licenses to use pumping engines for irrigation and other purposes, while a few are for cuttings or channels to divert water for similar uses. The security provided under the Act is stimulating the construction of new works of a better class throughout the country, and applications for licenses for these are steadily coming in.

Under section 4 of the Water Rights Act, the Government is empowered to carry out works for water conservation, irrigation, and drainage, in cases where the landholders concerned are willing to pay interest on the outlay. Petitions have been received in several cases of this description, and the proposals are now being dealt with.

No. 36.—Irrigation Trusts.

Irrigation Trusts have been established at Balranald, Hay, and Wentworth. The Municipal Councils of these towns were constituted Trustees, the area made over to them in each case being the temporary Commons.

Balranald Irrigation Trust.

The provisions of the Act (56 Vic. No. 26), passed June, 1893, establishing this Trust, are almost identical with those relating to the Hay and Wentworth Irrigation Trusts. As in those cases, the land forming this Trust is a portion of the temporary Common. The Act limits the area any one person may lease to a maximum of 40 and a minimum of 5 acres, and no person under 18 years of age, nor a married woman, is allowed to hold a lease. Up to the end of 1893, 1,000 acres had been surveyed into lots of 5 to 40 acres, but, as the by-laws framed by the Trustees had not then received the sanction of the Minister, these lots had not been thrown open. During 1895, however, the Minister's approval was obtained, and several blocks have been taken up.

The Trustees being of opinion that it would be advisable for an irrigation scheme to be carried out at Balranald in a similar manner to that at Wentworth, petitioned for the dissolution of the Trust, and the Government has now this matter under consideration. All surveys and levels necessary for the irrigation scheme have been completed.

Hay Irrigation Trust.

This Trust was established under Act 55 Vic. No. 25 (passed March, 1892), the provisions of which are practically the same as those of the Wentworth Irrigation Act. The land set apart formed part of the temporary Common, and comprised 12,847 acres. Any person (except Asiatic) can select and hold from 5 to 40 acres. The land was only thrown open in December, 1893, and up to 31st December, 1894, 62 holdings, embracing an area of 778 acres, had been applied for. The principal crops planted were barley, wheat, and oats. During 1895 an Act was passed excluding certain portions of the town and suburban lands of Hay from the irrigation area. A further amending Act, passed in 1896, entirely remodelled the Trust, and it now consists of six members, three of whom belong to the Public Service. The irrigation works were completed by an engineer appointed by the Government, and the area of land originally made over to the Trust was reduced to about 3,000 acres.

Wentworth Irrigation Trust.

This Trust was established under Act 54 Vic. No. 7 (passed September, 1890). The Trustees, being members of the Municipal Council of Wentworth, were empowered to tap the rivers Darling and Murray, and to construct dams and erect pumping machinery for irrigation purposes and, upon obtaining permission from the Governor-in-Council, to borrow money for these purposes. The area under the Trust consisted of 10,600 acres, and was a portion of the temporary Common already vested in the Municipal Council. The Trust was empowered to lease portions for any term not exceeding three years or, with the sanction of the Minister for Public Works, for any term not exceeding thirty years, and to supply water to persons outside as well as inside the irrigation area. An amount of £1,000 was spent in "Preliminary Expenses" during 1894, but up to the end of that year no portions had been leased by the Trust. Advantage was taken of a clause in the Act, providing for the dissolution of the Trust. The Government, who have now all the powers conferred by the Statute, completed the work contemplated in the Act.

The necessary levels have been taken and plans prepared for the irrigation of about 1,500 acres; but in the first instance the area to be thrown open for irrigation settlement is about 566 acres. The remainder will be offered periodically as the demand requires. The lots range in area from 5 to 26 acres and every lot is being provided with at least one outlet for water from an adjacent distributary. The water will be supplied from the river Murray by means of a centrifugal pump which is already in position. The channels for the distribution of the water are complete, an engineer and manager have been appointed by the Government, and the letting of the land only awaits the publication of Regulations, which are being prepared by the Crown Solicitor.

Parish Roads Trusts.—Prior to the passing of the Municipalities Act of 1858, Parish Roads Trusts were appointed to construct and maintain roads in certain localities, and the expenditure connected therewith was defrayed from the tolls collected and also grants from the Treasury. Eleven Roads Trusts were established, but with one exception, operations were confined to districts within the county of Cumberland.

On the 1st May, 1890, it was resolved by the Legislative Assembly, "That in the opinion of this House all Public Tolls should be abolished." As tolls formed the chief item of Revenue, the operations of the Trusts then existing have gradually ceased, and only the South Head Roads Trust is now active. The expenditure during the year ended 30th June, 1899, was £2,795, the balance in hand being £1,502.

District Councils.—With the exception of the Maitland Council which has 44 miles of road under care, all the District Councils have ceased to exist, and, on account of the abolition of tolls in 1890, the Maitland Council has only been able to continue its operations as a Roads Trust, placed on the same footing as the Classified Roads Trusts under the Works Department.

Trustees of Parks.—Under the "Public Parks Act of 1884," which repealed a statute passed in 1854, the Governor may appoint Trustees of any lands proclaimed for the purposes of public recreation, convenience, health, or enjoyment. The Trustees are empowered to frame by-laws for the protection of shrubs, trees, &c., upon the land vested in them, and to regulate the use and enjoyment of such land by the public.

"National" Parks.—The National Park, 36,320 acres, at Port Hacking; Kuring-gai Chase, 35,300 acres, on the Hawkesbury River; Parramatta Park, 252 acres, at Parramatta, are outside the Metropolitan area, but may be specially mentioned on account of their "national" character. The Centennial Park, 530 acres, divided between the Municipalities of Randwick and Waverley; as also Moore Park, 445 acres, The Domain, 90 acres, and the Botanic Gardens and Garden Palace grounds, 60 acres, situate in the City of Sydney, may also be designated "national" parks.

Constitution Act.—"An Act to confer a Constitution on New South Wales" (Imperial Act 18 and 19 Vic. ch. 54) received the Royal Assent on 16th July, 1855, and was amended in 1884 (47 Vic. No. 5). The Legislative Council and Legislative Assembly correspond, as far as is practicable, with the two Houses of the Imperial Parliament.

Legislative Council.—No maximum number of members of the Legislative Council is fixed by the Constitution Act, but the minimum number is set down at twenty-one. In December, 1898, the number of members was fifty seven, and in October, 1899, there were sixty-nine. They receive no allowance for expenses, but are privileged to travel free over the State railways and tramways in the Colony. Although the appointment is for life, a member forfeits his seat by absence from two consecutive Sessions without leave, by becoming bankrupt, and on account of other reasons, and he may voluntarily resign at any time.

Legislative Assembly.—The first Parliament under the Constitution Act met on 22nd May, 1856. The duration of Parliament was originally fixed at 5 years, but in 1874 an Act was passed establishing triennial Parliaments. In September 1889, an Act was assented to, allowing each member (not holding office as a Minister, Speaker, or Chairman of Committees) the sum of £300 per annum as a reimbursement of expenses incurred in the discharge of Parliamentary duties. Members also travel free over the State railways and tramways in the Colony, and are provided with official stamped envelopes to the value of £15 per annum for the free transmission of correspondence through the post. Under the Parliamentary Electorates and Elections Act of 1893, New South Wales has been divided into 125 electorates, each of which has one member to represent it in the Legislative Assembly.

Presidents of Legislative Council and Speakers of Legislative Assembly.—During the eighteen Parliaments there have been seven Presidents of the Legislative Council, and eight Members of the Legislative Assembly have filled the office of Speaker. The salaries voted for 1898-99 for these offices were £1,100 and £1,370 respectively.

Chairmen of Committees.—The Legislative Council and Legislative Assembly each elects one of its members as Chairman of Committees, the salaries for 1898-99 being £470 and £740 respectively.

Bills for Public Purposes.—A Bill for the paving, lighting, draining, or otherwise improving any town or district, or for supplying the same with water, is deemed a Public Bill.

Public Bills.—*How initiated.*—The Constitution Act provides that all money Bills must be introduced in the Lower House. All other public Bills may be initiated in either Chamber on a motion for leave to bring in the Bill, or by a resolution reported from a Committee of the Whole, and adopted by the House.

Royal Assent.—The Governor acts as Viceroy to give the Royal Assent to, or to veto, Acts passed by the Legislature.

Reserved Bills.—There are eight classes of Bills which the Governor must reserve for the special consideration of the Sovereign. Amongst these are Divorce Bills, Bills affecting the currency, and Bills conflicting with Imperial Treaty obligations.

Enrolment.—After receiving the Royal assent the Bill is numbered and dated. A new series of numbers commences with each secular year. The Act is then transmitted by the Clerk of Parliaments to the Registrar-General, and enrolled and recorded by him within ten days from the day on which the same shall become law, as provided by the Deeds Registration Act (7 Vic. No. 16).

Private Bills may be initiated in either Chamber. Notice of intention to apply for a private Bill must be published once a week for four consecutive weeks in the *Gazette*, and in at least one Sydney newspaper and one or more newspapers published in or nearest the District affected by the Bill. In these notices the general objects of the Bill must be stated. Before a private Bill can be read a first time, £25 must be paid to the Consolidated Revenue, and whenever the expenses necessary to such Bill exceed that amount, a further payment of £25 is required. The Bill having been read a first time, is referred to a Select Committee, who may hear counsel, and if the Bill is favourably reported upon, it is proceeded with as in the case of a Public Bill.

Private Acts not numbered.—Private Acts are not numbered.

NOTE.—The number of votes on the rolls available for the 16th, 17th, and 18th General Elections includes the names of persons who were not in possession of Electors' Rights, and others who were enrolled for two districts on account of transfer of rights, consequently the percentage of votes recorded to the number qualified to vote will be higher than shown in the foregoing table.

The Parliamentary Electorates and Elections Act of 1893, 56 Vic. No. 38, as amended by 57 Vic. Nos. 3 and 24 and 60 Vic. Nos. 24 and 25.—Under the authority of the principal Act three Commissioners were appointed to divide the Colony into 125 single Electorates—instead of, as previously, 74 Electorates returning 141 members—giving to each as nearly as practicable an equal number of Electors. Every man being a natural-born or naturalised subject or above the age of 21 years, who is of sound mind, and not on full pay in the Military or Naval Service, nor in receipt of public charity, is entitled to receive an "Elector's Right," provided that he, if a natural born subject, has resided, or has had his principal place of abode in New South Wales for a continuous period of one year, or if a naturalised subject for a like period after naturalisation -and residence for three months in the district for which he claims to vote—and applies in person, or through the post in prescribed form, to the Registrar of the district, and establishes his qualification. Provision is made for the issue of new "Rights" on change of residence, after one month's residence in the new district, and for substitutes for lost Rights. The system popularly known as "One man one vote" is in force.

Imperial Troops.—New South Wales was garrisoned by the British troops from the time of its foundation as a Colony in 1788 until the year 1870, when they were withdrawn. In the succeeding year, Act 34 Vic. No. 19 (Military and Naval Forces Regulation Act) was passed, having for its object the establishment of a local permanent force.

First Volunteer Force.—The first volunteer force was enrolled in 1854, under Act of Council 18 Vic. No. 8, which was repealed in 1867 by the "Volunteer Force Regulation Act," 31 Vic. No. 5. One of the clauses of thi Act provided for the issue of orders for land to persons serving as volunteers, but this system was abandoned under Act 41 Vic. No. 15. The forces were again reorganised in the year last mentioned, and in 1885 an additional force of reserves was raised. The Rifle Reserve companies were disbanded at the end of 1892, but in 1895 the Civilian Rifle Clubs were formed into a reserve force.

N.S.W. Military Commissions.—Commissions in the Permanent Artillery may be obtained by officers of the Partially-paid and Volunteer Forces or other selected candidates upon passing the requisite examination, and complying with certain conditions published from time to time in General Orders.

Imperial Military Commissions.—A Commission in the British Army is offered annually to a student of the Sydney University under regulations issued with Army Orders dated 1st January, 1892. Officers of the Local Forces are also eligible for appointment subject to certain conditions.

Naval Brigade.—The Naval Brigade was formed in 1863 under the provisions of Act 18 Vic. No. 5. It consists largely of men who formerly served on Her Majesty's ships on the Australian Station. The Brigade consists of six companies, five of which are stationed at Sydney and one at Newcastle.

Naval Artillery.—This branch of the Naval Force was organised in 1882 under the provisions of the Volunteer Act and Regulations, but in July, 1892, it was brought under the Partially-paid system. The torpedo boats are manned by members of both forces.

Armour.—The hull of each of the vessels of the auxiliary squadron is of steel. The deck armour over machinery space is 2-inch and 1-inch, and the conning towers are protected by 3-inch armour, except in the case of the torpedo gun-boats, the towers of which have 1-inch armour. In addition to the armament mentioned in the table, each of the cruisers carries four, and each of the torpedo gun-boats three, torpedo tubes.

Australasian Naval Force Agreement.—This agreement provides for the equipping, manning, and maintaining, at the joint cost of the Imperial and Colonial Funds, a naval squadron, consisting of five cruisers and two torpedo gunboats. The officers and men are changed triennially, and the limits where they are to be employed in times of peace or war are fixed within the boundaries of the Australian Station. It is provided that no reduction of the Imperial squadron shall be made in consequence of the equipment of this naval force. The Australasian Colonies contribute 5 per cent. on the cost of these vessels—not to exceed £35,000 per annum—in addition to the actual charge for their maintenance. In the event of the loss of vessels the Imperial Government has to replace them. The agreement is for ten years, and only terminable then provided notice is given at the end of the eighth year. Afterwards the agreement can be terminated by giving two years' notice. The vessels will revert to the Imperial Government on the termination of the agreement.

The Sydney Observatory was established in the year 1856, at the instance of Sir William Denison, Governor of New South Wales.

Time Ball.—The Time Ball at the Sydney Observatory is dropped every day at 1 p.m. Standard Time, or 15 hours Greenwich Mean Time.

Standard Time.—By the "Standard Time Act of 1894" (58 Vic., No. 11), which came into operation on 1st February, 1895, the mean time of the 150th meridian of longitude east of Greenwich, England, was declared to be Standard Time throughout New South Wales, but on account of the conflicting interest in the Barrier District this Act was amended by Act 60 Vic. No. 4, assented to on 2nd July, 1896. The Standard Time Act of 1894 does not now apply within the Municipal District of Broken Hill, nor the Electorate of Sturt, in respect of certain sections of the Licensing Acts, Billiard and Bagatelle Licensing Act, Parliamentary Electorates and Elections Act. The mean time of the 155th meridian of longitude is in respect of the above enactments declared to be the standard time for the said Municipal and Electoral Districts.

Latitude, &c., of Observatory.—Latitude, 33° 51′ 41·1″ south; longitude, 151° 12′ 42·15″ east; magnetic variation, 9° 28′ 51″ east; altitude, 146 feet.

Thermometers.—The thermometers are exposed in a shed 11 feet square, of which the sides are 5 feet 6 inches high, and enclosed to within 18 inches of the ground with open lattice-work. The roof is conical, rises to 13 feet above the ground, and is covered with louvres close enough to keep out rain. Repeated experiments have been made to determine the relation between temperature in this shed and that shown by a swing thermometer, both night and day, with the result that there is no difference. It is, therefore, assumed that the shade obtained is a satisfactory one.

Humidity.—The humidity is obtained from the wet and dry bulb readings by means of a set of curves, which show the amount by inspection. These curves have been calculated from the Greenwich Dew Point Factors. The humidity thus obtained agrees with that given by Glaishier's tables.

Rain-gauge.—The rain-gauge is round, 8 inches in diameter, and with rim 15 inches above ground. The pluviometer results are from a gauge of the same size, 9 ft. above ground, and recording on the same paper as the anemometer. Two similar gauges, placed on the ground 6 ft. apart, are always used; they differ very little, and not always the same way; the larger record is always taken.

NOTE.—The records of the pluviometer are affected by the force of the wind and some loss by friction in the recording machine; the total, therefore, is always less than that shown by the rain-gauge. The measured rainfall (including dew), as given by the rain-gauge, for 1898, was 43·172 inches, while the pluviometer only registered 40·173 inches.

Pluviometer.—This instrument (10 feet above ground) records on the same paper as the anemometer, thus giving at one view—wind, rain, and barometer changes.
